TRIUMVIRATE ENVIRONMENTAL

Why Triumvirate?

Rather than deliver just process, reports, and documents, Triumvirate EHS Consulting Services focuses on and delivers the end result of successful EHS programs, specifically:

- Delivery of a safe working environment: Reduce risk and liability through subject matter expertise (including local knowledge), best practices, and robust operational integrity with 24/7 response.
- Act as an independent advisor.
- Proactive response to regulatory changes.
- Operationalize policy and procedures through a multi-disciplined process and experienced skillset.
- Cost effective solutions:
  - Efficiency – less than FTE if needed.
  - Effectiveness – strong ability to deliver within the client organization.
  - Fixed budget – no surprises.
  - Reduce burn rate of startup funds.
- Complete documentation and administrative requirements.
- Maintain strong communications and visibility both internally and externally.
- Reduction of non-core or non-strategic management responsibilities. Consistency across multiple sites/divisions/operating groups.
- Tailored or à la carte solutions that are flexible and easily modified. Delivery with any range of current infrastructure (none too robust).
- Right training at the right time.
- Top life science firms, universities, hospitals, and industrial companies have trusted Triumvirate since 1988.

"It is my pleasure to share our gratitude and respect for the work you perform here. My expectations were high, yet you managed to exceed all my expectations of quality, diligence, expertise, and professionalism. In addition, your responsiveness to unexpected scope changes is extraordinary. All this and you are fun to work with. It is possibly the best experience I have had in environmental contracting in 35 years."

- Senior Manager of EHS, Large Biotech Company

Triumvirate EHS Consulting Services, in conjunction with waste management and field services, delivers the entire spectrum of EHS support for your firm.
