

JumpStart

Triumvirate Environmental's JumpStart program is designed to catapult organizations in the life sciences, biotech, and pharmaceutical industries into **regulatory compliance and operational excellence.** This program is designed for large pharmaceutical organizations, small biotech startups, and everything in between. Here's how it works:

1. Triumvirate Environmental experts perform a **risk assessment** and **identify gaps.**
2. Our service team works closely with your staff to **integrate environmental, health, and safety (EHS) programs into existing systems** to help **reduce risk and assure compliance.**
3. This team, filled with your pros and Triumvirate Environmental's competent experts, will help meet your **custom needs** and achieve your **compliance goals.**

The JumpStart team can support you in the following areas:

- Resource Conservation and Recovery Act (RCRA) compliance and program improvement
- Emergency Planning and Community Right-to-Know Act (EPCRA) compliance and program optimization
- Chemical inventory management
- National Fire Protection Agency (NFPA)/Fire Code compliance
- Department of Transportation (DOT) compliance and security
- Department of Homeland Security (DHS) compliance and security
- Radiation waste management
- Regulated waste management and efficiency
- Wastewater permits and operations
- Regulatory compliance training - RCRA, DOT, etc.
- Biosafety permitting
- Program review and optimization
- Medical surveillance programs
- Radiation safety programs
- Occupational Safety and Health Administration (OSHA) programs
- Safety training - OSHA, etc.
