The Triumvirate Difference

We:

- Maintain a **wide variety** of industry-leading vacuum equipment permitted to transport both hazardous and non-hazardous materials
- Can **quickly profile** almost any waste stream, often while being dispatched to site
- Are **highly trained** in local, state, federal, DOT, RCRA, OSHA, and SPCC regulations
- Are **thoroughly versed** in manifesting, placarding, and facility paperwork
- Complete bulk waste disposal and transportation **safely, quickly, and accurately**, as well as provide job summary sheets for reporting
- **Evaluate** your bulk waste generation activities and **recommend** specific transportation and disposal methods to best fit your needs
- **Fully oversee the service**, from project design to execution to final regulatory report summary
