

Environmental Specialist

Entry-level Environmental Specialists are the backbone behind Triumvirate Environmental's success. They are hardworking, quick on their feet, innovative, and customer intimate. Our customers are world-renowned life science, healthcare, industrial, and higher education institutions and our Environmental Specialists interface with them each day, serving as an extension of their own Environmental, Health, and Safety Departments.

While Environmental Specialists begin in entry-level roles, they move on to serve in nearly every department within Triumvirate. Former Environmental Specialists are everywhere in the company including the consulting, sales, and operations management departments. The Environmental Specialist role provides you with hands-on foundational knowledge you need to develop as an environmental professional.

Bring your hard work and curiosity to Triumvirate and build your career in the environmental services industry by joining our Environmental Specialist Team.

Essential responsibilities and duties include:

- Manage hazardous and chemical waste programs for clients onsite following Federal, Provincial, and Municipal environment regulations, waste management regulations, and transportation regulations
- Execute onsite support services for the entire lifecycle of a hazardous materials management programs at client sites by performing chemical inventories, segregating chemicals, and shipping hazardous waste off-site
- Characterize, consolidate, pack, and ship hazardous waste for clients per Federal, Provincial, and Municipal regulations

- Train clients on proper chemical safety and hazardous waste management
- Perform and document environmental, health, and safety audits for clients in their facilities and laboratories using Triumvirate's ADVISE program
- Develop an understanding of Federal/Provincial Health and Safety regulations as well as Triumvirate's Health and Safety Practices
- Respond to chemical spill emergencies by managing the containment, clean up, and disposal of hazardous materials

Upon completion of emergency response (ER) training, all Environmental Specialists will be on a rotating ER team; requirements include being on-call 24 hours each day for one week out of each month.
