EHS Learning Lab

Your Complete Training Solution

Training management and delivery, when not done well, can be expensive, time consuming, and inefficient. EHS Learning Lab is a comprehensive program that manages training full-circle, from identifying your training needs, to creating cutting-edge eLearning content, to tracking the important regulatory data you need to stay compliant. The scalable model can support the training requirements of all companies, from small startups to large, complex operations.

3 Components of the EHS Learning Lab Online Training Program

Assess Your Training Needs

Our experienced team will evaluate your organization's unique environmental, health, and safety (EHS) training needs, including:

- > Identifying regulatory compliance training gaps
- > Advising you on which employees fall under which regulations
- > Providing expertise on EPA, FDA, DOT, OSHA, and state-specific training requirements

Develop Cutting-Edge eLearning Content

We will develop a tailored-to-you training program with elements such as:

- > Interactive, SCORM-compliant training content
- > Engaging quizzes, animations, and simulations
- > Instructor-led trainings by industry experts

Deliver, Track & Report Through an LMS

We will deliver the right training to the right employees through a cloud-based learning management system (LMS) that houses records such as:

- > Certificates of completion and transcript data
- > Accurate training expiration dates
- > Audit-ready training data that can be produced at any time
